Re: On-line Medical Direction

Please contact on-line medical direction at the Erie County Medical Center only as indicated in the WREMS ALS Patient Care protocols. The on-duty emergency physicians will gladly provide you with orders and answer your questions regarding patient care. However, we ask that you do not call for on-line medical direction whenever just notifying us of your arrival. These should continue to be done via the MERS radio.

I thank you for your help with this matter. Please feel free to contact me if you have comments, questions, concerns or suggestions.
