

Summer Internships in Nanomaterials Research

Overview of the program:

- 1) Interns will engage in nanoscience and engineering research at the University at Buffalo. Interns will work under the guidance of UB faculty and graduate students.
- 2) Further information is available via <http://wings.buffalo.edu/research/watson/>.

Schedule for the summer research program:

6 weeks (July 8th – August 14th, 2009), M-F 9:00 am – 5:00 pm.
Interns will receive a stipend, and transportation costs will be subsidized.

Two methods to apply:

- 1) Email completed application to Prof. David Watson: dwatson3@buffalo.edu
- 2) Mail a hardcopy of completed application to the following address:

Prof. David Watson
Department of Chemistry
531 Natural Sciences Complex
University at Buffalo
Buffalo, NY 14260-3000

Application deadline: Friday, June 5th, 2009

For more information, please contact Prof. David Watson, UB Dept. of Chemistry:
email: dwatson3@buffalo.edu, phone: 716-645-6800 ext. 2154

Application:

Name _____

High school _____ Current grade _____

Address _____

City, state, zip _____

Phone _____

Email address _____

High school science courses completed, teacher, and final grade received:

Course _____ Teacher _____ Letter grade _____

Course _____ Teacher _____ Letter grade _____

Course _____ Teacher _____ Letter grade _____

Personal statement: On a separate page, please discuss your motivation for entering the internship program. For instance, what interests you about science and scientific research? What are your academic and/or career goals? What do you hope to learn or what experiences do you hope to gain from the program? Please limit your statement to less than 500 words.
