

Systems for Improving Patient Safety

Tuesday, April 8, 2008

5:30-7:30 pm

Butler Auditorium

Farber Hall, UB School of Medicine

Presenter

Harry C. Sax, M.D.
Surgeon-in-Chief
The Miriam Hospital
Providence, RI

Program Goals

- Recognize the process by which medical errors occur and identify methods to reduce them
- Discuss effective skills of communication among team members
- Identify potential sources of medical errors in Buffalo, and brainstorm solutions with local hospital officials.

The last of four Core Curriculum Master Sessions for this academic year sponsored by the UB Graduate Medical and Dental Education Program

Refreshments Provided - RSVP Required
